ACCESS KEY: D = Disabled S = Scooter W = Wheelchair Available

Ambulance Transport Information:

- Booking are accepted subject to eligibility. To book, call **0300 777 2222**
- Morning appointments only should be booked if you require Ambulance Transport
- You may find you wait some time for pick-up for your return journey following Screening. Please be prepared and bring food and drink to prevent dehydration/problems due to diabetes
- Please attend with a relative, friend of carer as we are unable to assist patients with basic bodily functions

Using Mobility Scooters following screening:

There is no legal eyesight requirement to drive mobility scooters or powered wheelchairs, but you should be able to read a car's registration number from a distance of 12.3 metres (40 feet). You must check that you can still do this regularly.

Driving and Operation of Heavy Machinery:

Your eyes will be dilated using drops which make your eye sight blurred; therefore you may not be legal to drive. You should not attempt to drive until the effects of the drops have worn-off, which can take 4-6 hours.

What to bring with you to your appointment:

- A pair of sunglasses - Your eyes will be sensitive to light following screening
- Bring your distance glasses to help you read the Vision Chart
- Bring a Friend, Relative or carer if you need assistance

Thank you

Midlands Partnership

NHS Foundation Trust

A Keele University Teaching Trust
